WSP/ATR SUBMISSION OVERVIEW

WSP/ATR SUBMISSION OVERVIEW

Workplace Skills Plan (WSP)

- Plan that documents the skills needs of a company.
- Outlines how organisations will address their training and skills development requirements.
- Supports employers in the recognition and implementation of various skills development programmes such as learnerships and internships to deal with skills gaps within a company.

Annual Training Report (ATR)

- Report on the education and training interventions that were delivered in the past year.

Pivotal Training Plan (PTP)

- Plan to address Professional, Vocational, Technical and Academic learning programmes in the workplace.

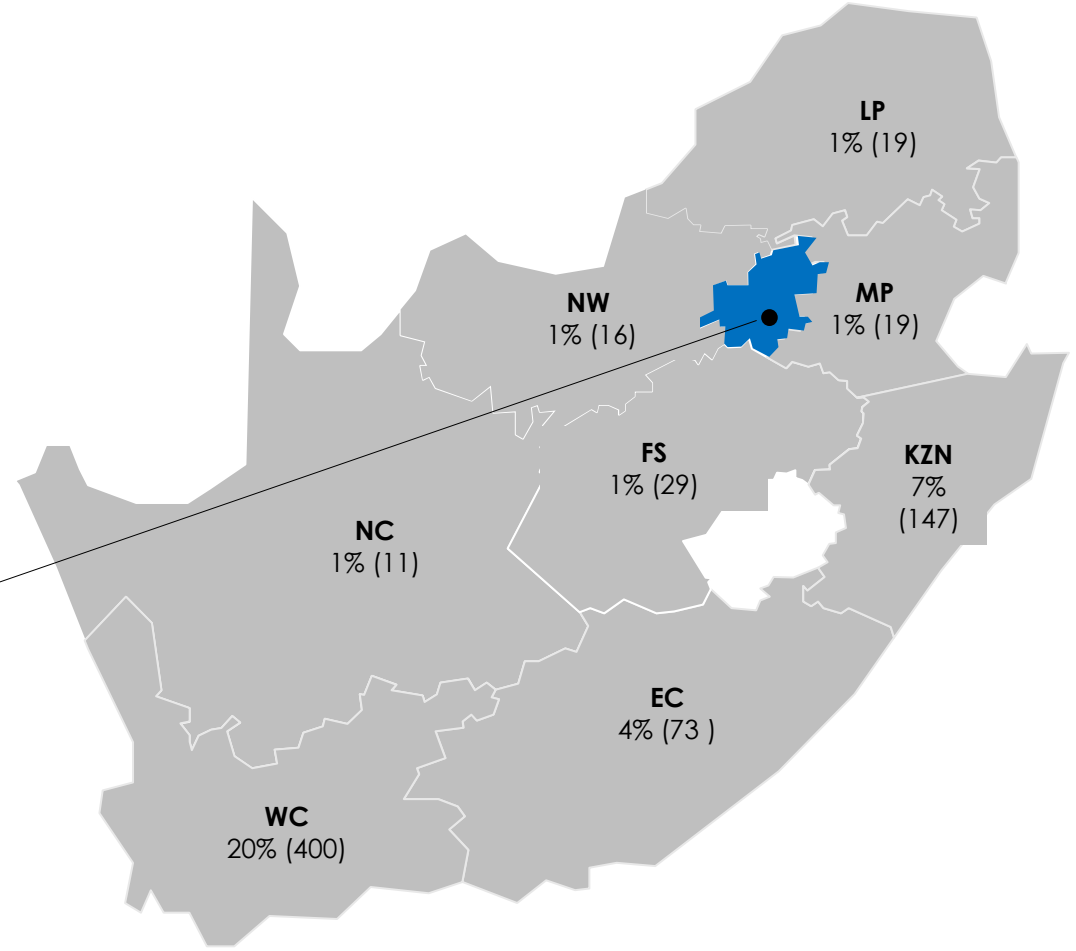

Pivotal Training Report (PTR)

- Report on Professional, Vocational, Technical and Academic learning programmes that were delivered in the past year.

NB: The aforementioned documents should be submitted to the sector-specific SETA on or before 30 April each year. All submitting companies need to appoint a suitably qualified SDF to facilitate the training needs within the organisation and liaise with the SETA.

WSP/ATR SUBMISSION OVERVIEW (CONTINUED)

WSP/ATR Submission (2020 – 2025)

Gauteng
accounted for the largest share of submissions, representing 65% (1300)

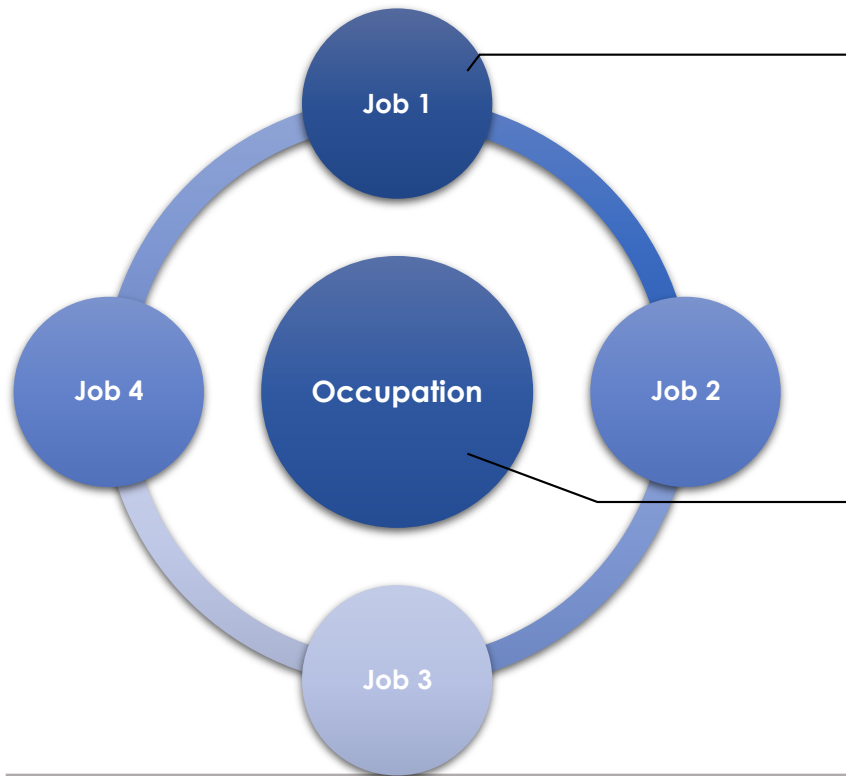

ORGANISING FRAMEWORK FOR OCCUPATIONS

ORGANISING FRAMEWORK FOR OCCUPATIONS

What is an OFO?

- Classification system used to categorise and classify occupations in the labour market.
- The OFO is the SETAs' and DHET's primary tool for identifying, reporting, and monitoring skills demand and supply in the South African labour market.

- A **job** is a set of **tasks and duties** performed by an individual for a specific employer.
- An **occupation** is a group of **similar jobs, tasks, and duties**.
- Specialisations within an occupation define specific roles.

HOW THE OFO IS STRUCTURED

OFO CODE	DESCRIPTION
2021-1	MANAGERS
2021-2	PROFESSIONALS
2021-3	TECHNICIANS AND ASSOCIATE PROFESSIONALS
2021-4	CLERICAL SUPPORT WORKERS
2021-5	SERVICE AND SALES WORKERS
2021-6	SKILLED AGRICULTURAL, FORESTRY, FISHERY, CRAFT AND RELATED TRADES WORKERS
2021-7	PLANT AND MACHINE OPERATORS AND ASSEMBLERS
2021-8	ELEMENTARY OCCUPATIONS

NB: The version that will be used for the 2025/26 submission is the '2021 OFO Code version'

KEY CHANGE DRIVERS

POLICY FRAMEWORKS

Policy frameworks affecting skills demand and supply:

- National Development Plan (NDP) 2030
- Medium-Term Development Plan (MTDP) 2024–2029
- White Paper on Post-School Education and Training (WP-PSET)
- National Skills Development Plan (NSDP) 2030
- Industrial Policy Action Plan (IPAP)
- National Integrated ICT Policy White Paper
- Economic Reconstruction and Recovery Plan (ERRP) & Skills Strategy
- Presidential Youth Employment Initiative (PYEI)
- District Development Model (DDM)

MICT SETA MEASURES IN SUPPORT OF MTDP PRIORITIES

MTDP PRIORITIES

Inclusive Growth & Job Creation

Reduce Poverty and Tackle the High Cost of Living

Build A Capable, Ethical & Developmental State

MICT OUTCOMES

Outcome 1: Credible labour market information that accurately identifies occupations in high demand

Outcome 2: Enablement of the 4IR

Outcome 5: Increased and focused skills development for rural and marginalised communities to ensure inclusivity through technology skills development

Outcome 7: Support for SMMEs, Entrepreneurship and CBOs particularly in relation to 4IR cross-sectoral partnerships and projects for sustainable growth

Outcome 3: Increased access to, and delivery on occupationally directed priority programmes that link education and the workplace

Outcome 4: Support initiatives that prioritise the provision of agile, flexible and demand-led skills development programmes, with retraining/ upskilling being a priority

Outcome 8: Supported career development services within the MICT sector

Outcome 6: Support growth of the public college system through sectoral partnerships in the delivery of learning interventions

THE EXTENT OF SUPPLY

Enrolments and Completions in MICT SETA Programmes, 2024/25

Learnership and skills programmes record the highest enrolment and completion rates across the MICT SETA learning interventions.

CHAPTER 4: SETA PARTNERSHIPS

MICTSETA

MICT SETA PARTNERSHIP MODEL

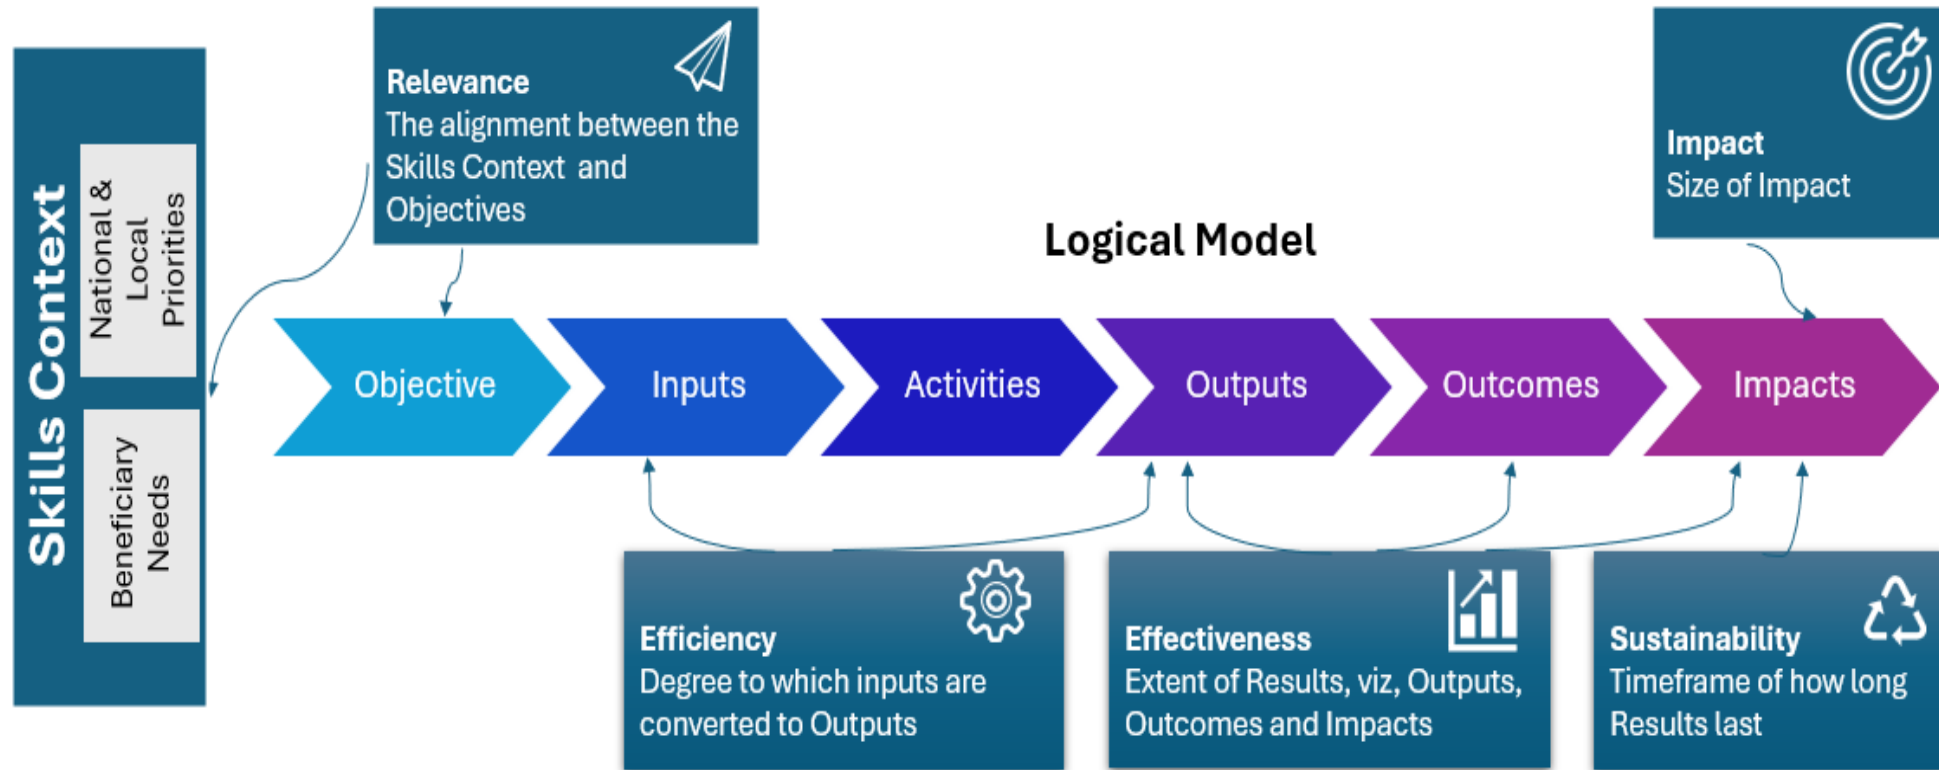

PROPOSED NEW PARTNERSHIPS

Industry Partner	Rationale and Objectives of Partnership	Intended Strategic Focus
MICT sub-sector employers	To leverage existing vendor-based training programmes offered by employers within the sector. These programmes are often aligned with industry needs and create significant youth employment opportunities.	Support high-impact vendor programmes that enhance youth employment and contribute to the goals of the ERRP, MTDP and other national priorities.
Partnership with Big Corporations within the MICT SETA	To explore co-funding opportunities for sector-relevant education and training programmes, while leveraging corporate infrastructure, technical expertise, and global experience. The aim is to deliver agile, demand-driven skills development initiatives.	Foster collaborative investment in skills development through co-funding and shared responsibility, with a focus on industry-aligned, responsive training programmes.
International exchange programmes	To train learners in advanced technologies such as software development and systems analytics, while building local capacity to innovate and protect intellectual property.	This partnership will seek to expose learners to global best practices, cutting-edge technologies, and innovation ecosystems that will strengthen the MICT sector's competitiveness and self-reliance.

SUBJECT MATTER EXPERT REGISTRATION

REGISTRATION OF SUBJECT MATTER EXPERTS

- ❑ In terms of the Occupational Qualifications Sub-Framework (OQSF), Subject Matter Experts (SMEs) are individuals with deep expertise and practical experience in a specific field or occupation. Their role is crucial in the development, design, and evaluation of occupational qualifications, part-qualifications, and related assessments, including External Integrated Summative Assessments (EISA).
- ❑ Applications to become registered as a Subject Matter Expert with the MICT SETA must be done via the LMIS.
- ❑ The requirements for successful registration include, but are not limited to:
 1. The applicant must possess a relevant qualification
 1. SAQA “Have a relevant academic qualification or equivalent recognition, **at a level higher than the qualification being assessed**”
 2. MICT SETA Policy Clause 6.1.37: “Certified copies of certificate of competence in relation to the unit standard(s) and/or qualification(s) for which they apply to be **registered at (or preferably above) the level of the said standard (s) and/or qualification(s).**”
 2. The applicant must have a minimum of 2 years occupational experience
 3. The applicant must submit the relevant compliance documents
 4. MICT SETA registered Assessors and Moderators qualify to become Subject Matter Experts dependant on their skills, knowledge and expertise against the curriculum requirements.

REGISTRATION OF SUBJECT MATTER EXPERTS

- ❑ The curriculum document for each qualification outlines the Human Resource requirements for Subject Matter Experts.
- ❑ In some instances, Vendor certification is required .e.g. An applicant seeking to register as a Cybersecurity SME must complete a short programme and receive certification. This may be from Microsoft, CompTIA, AWS or any other institution.
- ❑ Please note that all certification will be verified.
- ❑ The excerpt below is from the Occupational Certificate: Cloud Administrator curriculum document:
<https://www.qcto.org.za/full---part-registered-qualifications.html>

Human Resource Requirements:

- Lecturer/learner ratio of 1:20 (Maximum)
- Qualification of lecturer (SME):
 - NQF 5 industry recognised qualification with 1 years' experience in the IT industry
 - Vendor certification
- Assessors and moderators: accredited by the MICT SETA

WORKPLACE LEARNING AND APPROVAL

WHAT IS WORKPLACE LEARNING

- ❑ Workplace learning is gaining practical experience through tasks and activities in a real work environment.
- ❑ Workplace Learning contains three key components:
 - ❑ The alignment of classroom and workplace learning;
 - ❑ Application of academic, technical, and employability skills in a work setting; and,
 - ❑ Support from classroom or workplace mentors.

BENEFITS OF WORKPLACE LEARNING

- ❑ Skill Development Learners apply theoretical knowledge in practical settings
- ❑ Work Readiness Learners gain familiarity with workplace culture
- ❑ Mentorship Support Learners receive guidance from experienced mentors or coaches
- ❑ Improved Employability Real-world experience makes learners more attractive to employers
- ❑ Industry Alignment Ensures training is relevant to current industry needs
- ❑ Confidence Building Learners develop confidence through real tasks and responsibilities

IMPLEMENTING OCCUPATIONAL PROGRAMMES

IMPLEMENTING OCCUPATIONAL PROGRAMMES

WHY ARE ASSESSORS REQUIRED IN THE OCCUPATIONAL PROCESS

- ❑ Assessors ensure that learners meet the required standards through fair and consistent evaluation. They uphold the principles of assessment:
 - ❑ **Integration** - To form part of a system of human resources development that provides for the establishment of a unifying approach to education and training.
 - ❑ **Relevance** -To be and remain responsive to national development needs.
 - ❑ **Credibility** - To have international and national value and acceptance.
 - ❑ **Coherence** - To work within a consistent framework of principles and certification.
 - ❑ **Flexibility** - To allow for multiple pathways to the same learning ends.
 - ❑ **Standards** - To be expressed in terms of a nationally agreed framework and internationally acceptable outcomes.
 - ❑ **Legitimacy** - To provide for the participation of all national stakeholders in the planning and co-ordination of standards and qualifications
 - ❑ **Access** -To provide ease of entry to appropriate levels of education and training for all prospective learners in a manner that facilitates progression.
 - ❑ **Articulation** - To allow learners, on successful completion of accredited prerequisites, to move between components of the delivery system.
 - ❑ **Progression** - To ensure that the framework of qualifications permits individuals to move through the levels of national qualifications via different appropriate combinations of the components of the delivery system.
 - ❑ **Portability** - To ensure that learners are able to transfer credits of qualifications from one learning institution and/or employer to another.
 - ❑ **Recognition of Prior Learning** - To, through assessment, give credit to learning which has already been acquired in different ways.
 - ❑ **Guidance of learners** - To provide for counselling of learners by specially trained individuals who meet nationally recognised standards of educators and trainers.

WHY ARE MODERATORS REQUIRED IN THE OCCUPATIONAL PROCESS

- ❑ Moderators ensure an essential part of ensuring integrity in assessment task: learner competence and endorsement of sound implementation process which will be verified by the QCTO at provider monitoring level.

They assess:

- ❑ Moderates and ensures quality of the assessments done by the assessor to ensure that they are fair, valid, reliable and practicable.
- ❑ Ensure that the assessor complies with the assessment procedure as stated in the assessment guide.
- ❑ Ensures that assessment meets the principles of good assessment.
- ❑ An appeals procedure for dissatisfied learners is provided and the feedback and results can be documented.
- ❑ The required performance of the assessors can be monitored and evaluated regularly.
- ❑ Prepares the Moderation by reviewing the Moderation strategy.
- ❑ Establish a system which will standardise the implementation of assessment in the organisation.
 - ❑ Verify the design of assessment methods and tools
 - ❑ Verify, through a process of sampling if assessments were conducted fairly, whether results are valid and reliable and if a need to re-design assessments is required.

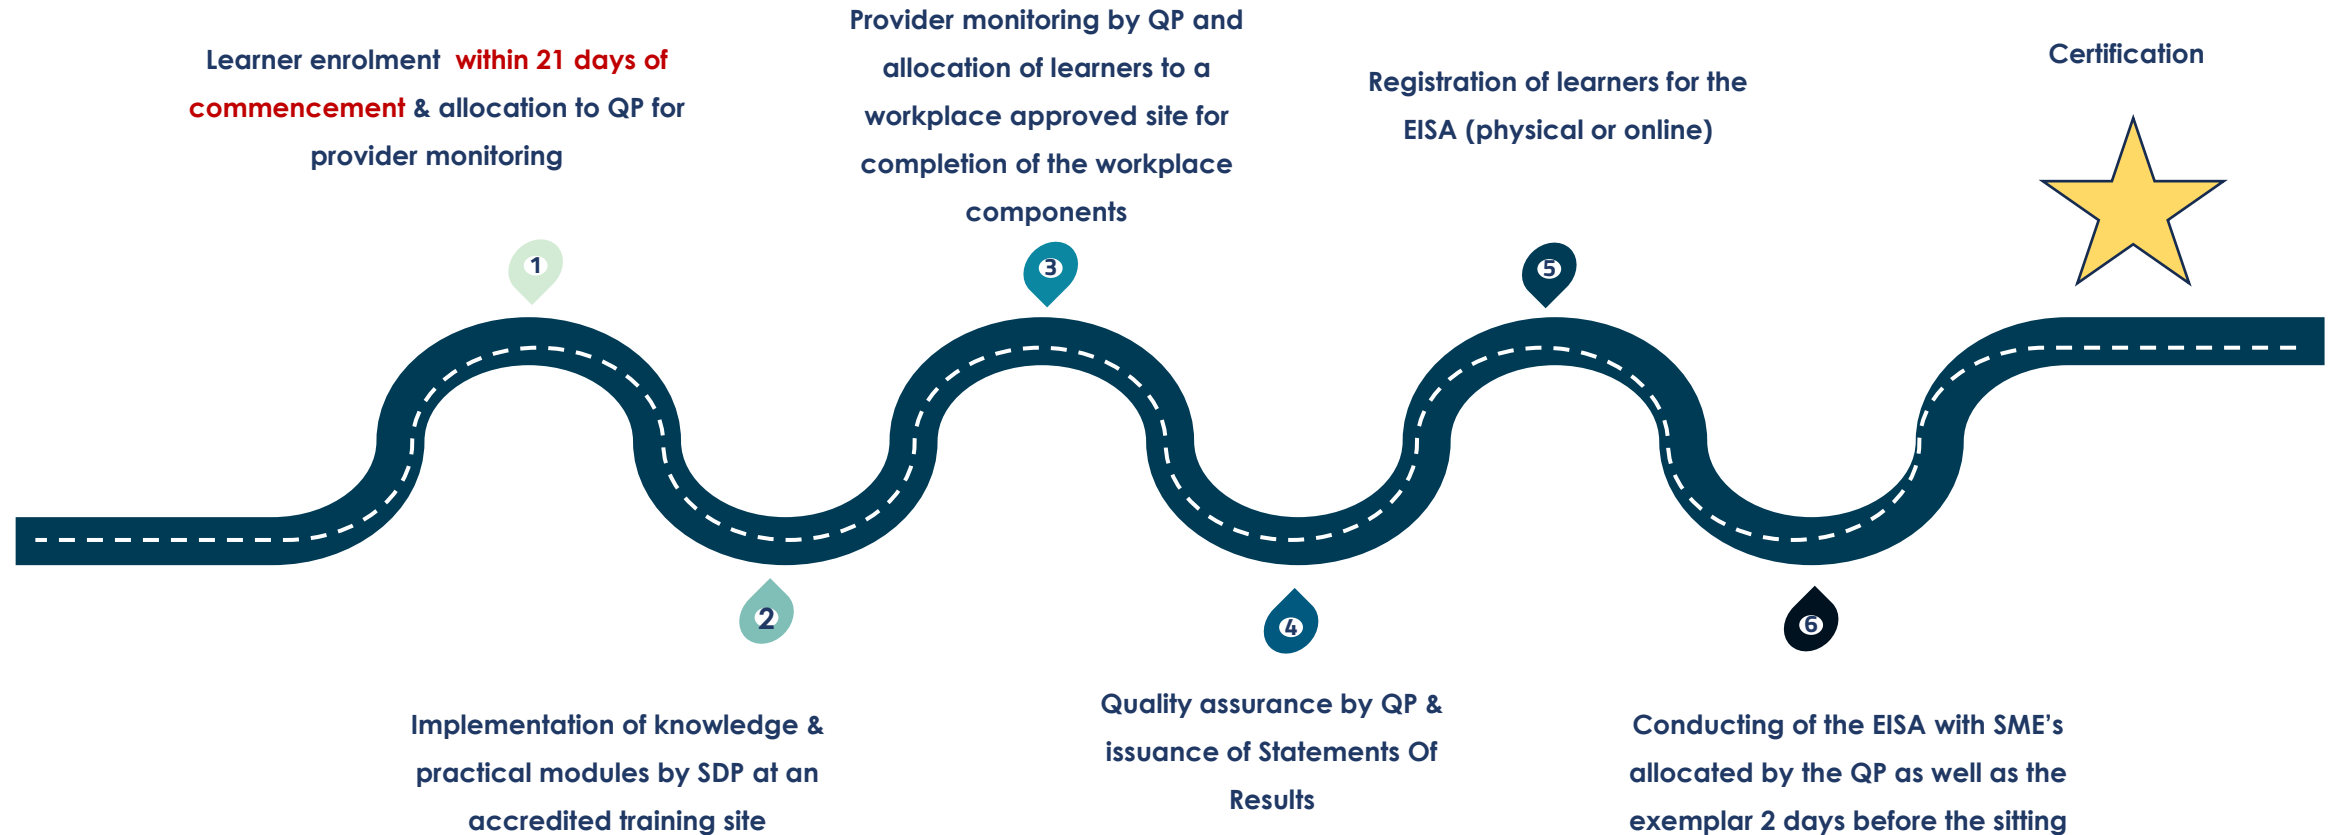

What does it boil down to when we conduct moderation at the provider level?

It ensures that the NQF as a whole, is a credible system in providing qualifications and standards to learners.

EXTERNAL INTEGRATED SUMMATIVE ASSESSMENT

ROLES AND RESPONSIBILITIES OF ROLE-PLAYERS IN THE EXTERNAL INTEGRATED SUMMATIVE ASSESSMENT CENTRE PROCESS

UNPACKING THE EISA

- ❑ Acronym for External Integrated Summative Assessment and leads to an Occupational Qualification Certificate.
- ❑ Provides the Single national assessment conducted by applying standardized assessment instruments developed and administered by the Quality Partner (QP).
- ❑ For learners to qualify for the EISA, they must complete all **THREE components: Theory/knowledge, Practical and Workplace.**
- ❑ The SDP issues the Statement of Results (SOR) as a proof that the learner met all EISA requirements and can sit for the EISA.
- ❑ Planned EISA dates published on the QCTO website: www.wcto.org.za
- ❑ Closing dates for registration of learners are specified, learners must be registered 3 months prior to the EISA date. **No late registrations allowed.**
- ❑ The QCTO must conduct provider monitoring
- ❑ writes the EISA only if the QA team approves the readiness of the SDP to conduct the EISA.

<https://www.qcto.org.za/assets/quick-guide---implementation-of-occupational-qualifications.pdf>

UNPACKING THE EISA

THE SDP'S RESPONSIBILITY

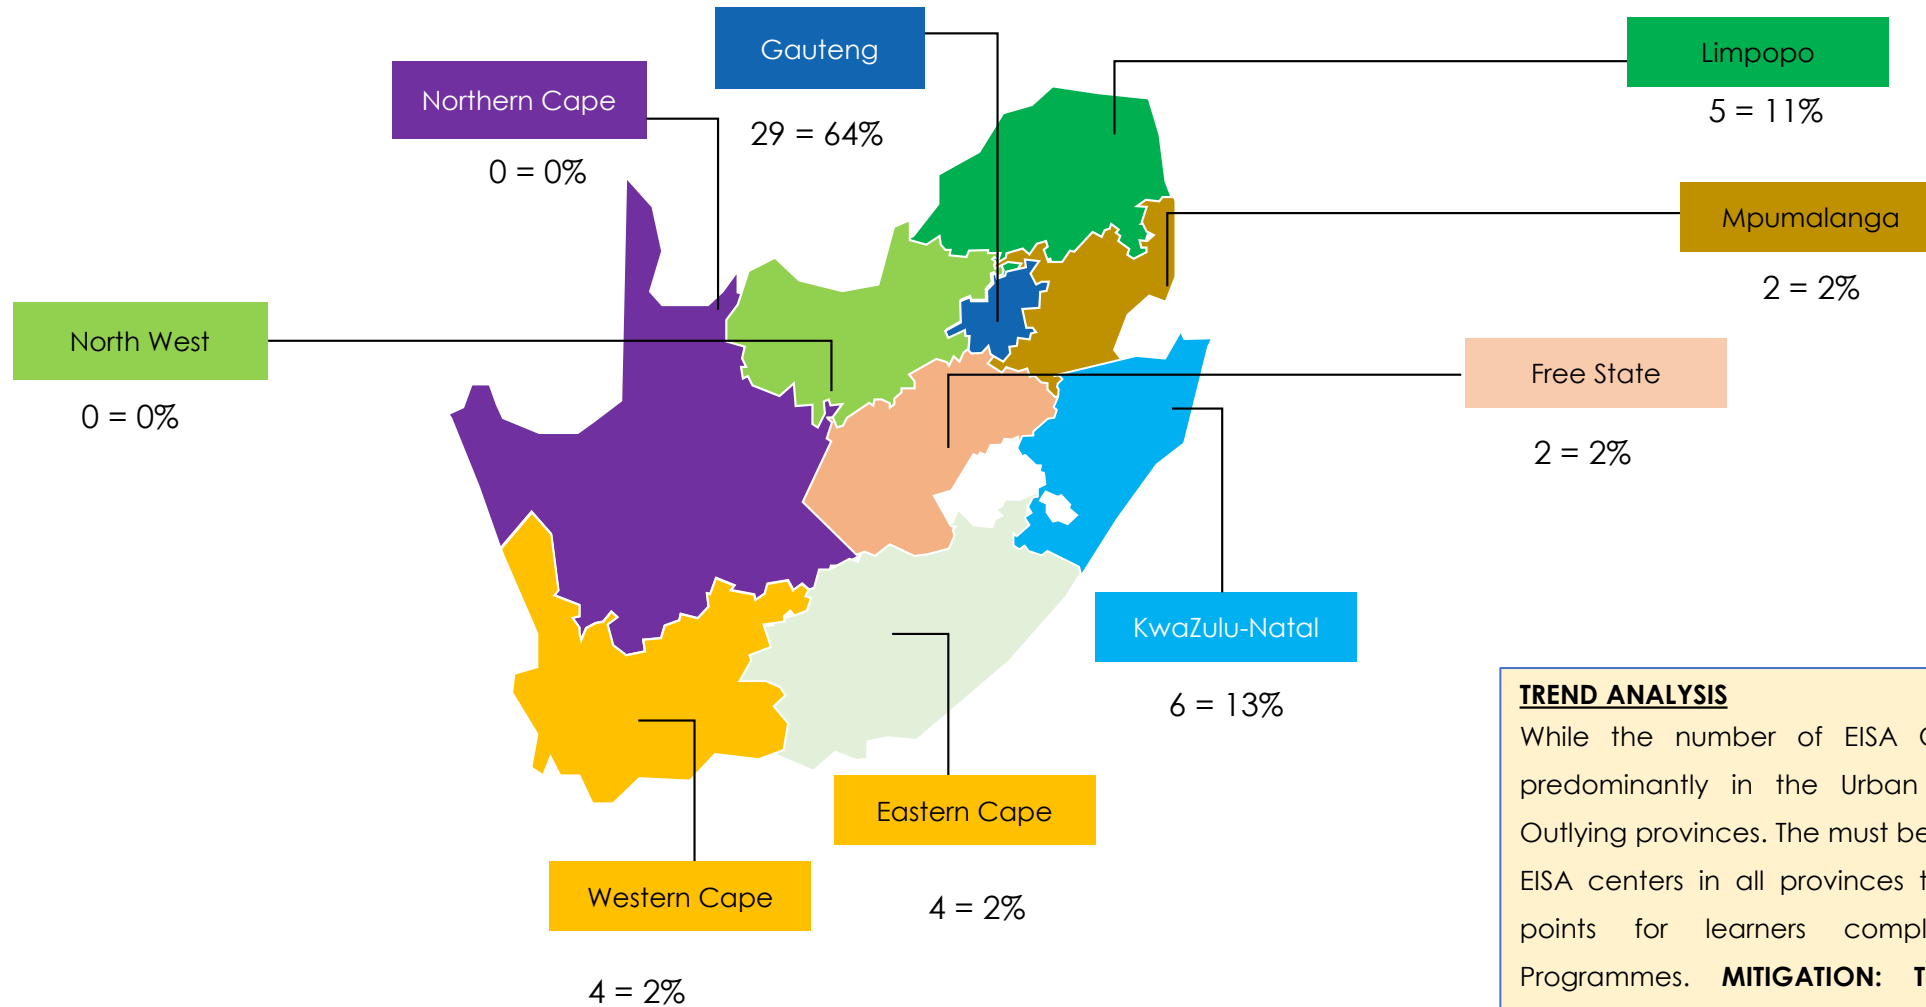

- ❑ To register learners for the EISA, learners must be found competent in all three modules.
- ❑ The standardized Statement of Results (SORs) template is provided to all QCTO accredited Skills Development Provider (SDP) by the QCTO.
- ❑ The SDP must Complete the LEISA file for the learners that are ready to write the EISA.
- ❑ The SORs and the LEISA File are submitted to the QCTO to confirm the readiness of the learners to write the EISA.
- ❑ This is emailed to EISAReadiness@qcto.org.za
- ❑ SORs submitted by SDPs are sampled to verify the supporting documents for quality assurance.
- ❑ Practical EISA with the **Assessor/s and Moderator/s** or Simulation
- ❑ Written EISA: Invigilators, Markers and Moderators
- ❑ The Assessment Centres must have the necessary equipment to accommodate the EISA specifications.

EISA ACCREDITATION REQUIREMENTS

INSTITUTIONAL/LEGISLATIVE COMPLIANCE	PROGRAMME DELIVERY READINESS
The site is a juristic person registered and established in terms of any South African law/CIPC	Have a suitable and compliant MIS in accordance with QCTO specifications;
Have a valid tax clearance certificate issued by the South African Revenue Service if applicable	Be safe, secure and accessible to candidates
Registered Assessors and Moderators	Have appropriately qualified human resources as specified by the AQP
	Make provision for any other requirements specified for the relevant trade, occupational qualification or part qualification.

ASSESSMENT CENTRES ACCREDITED AS AT AUGUST 2025

TREND ANALYSIS

While the number of EISA Centres has increased, it is predominantly in the Urban and Per-Urban Centres of Outlying provinces. There must be an increase in the number of EISA centers in all provinces to ensure that there are exit points for learners completing MICT Occupational Programmes. **MITIGATION: Targeted Capacity Building sessions with accredited SDP's to assist them with the process of becoming Assessment Centers.**

RECOGNITION OF PRIOR LEARNING

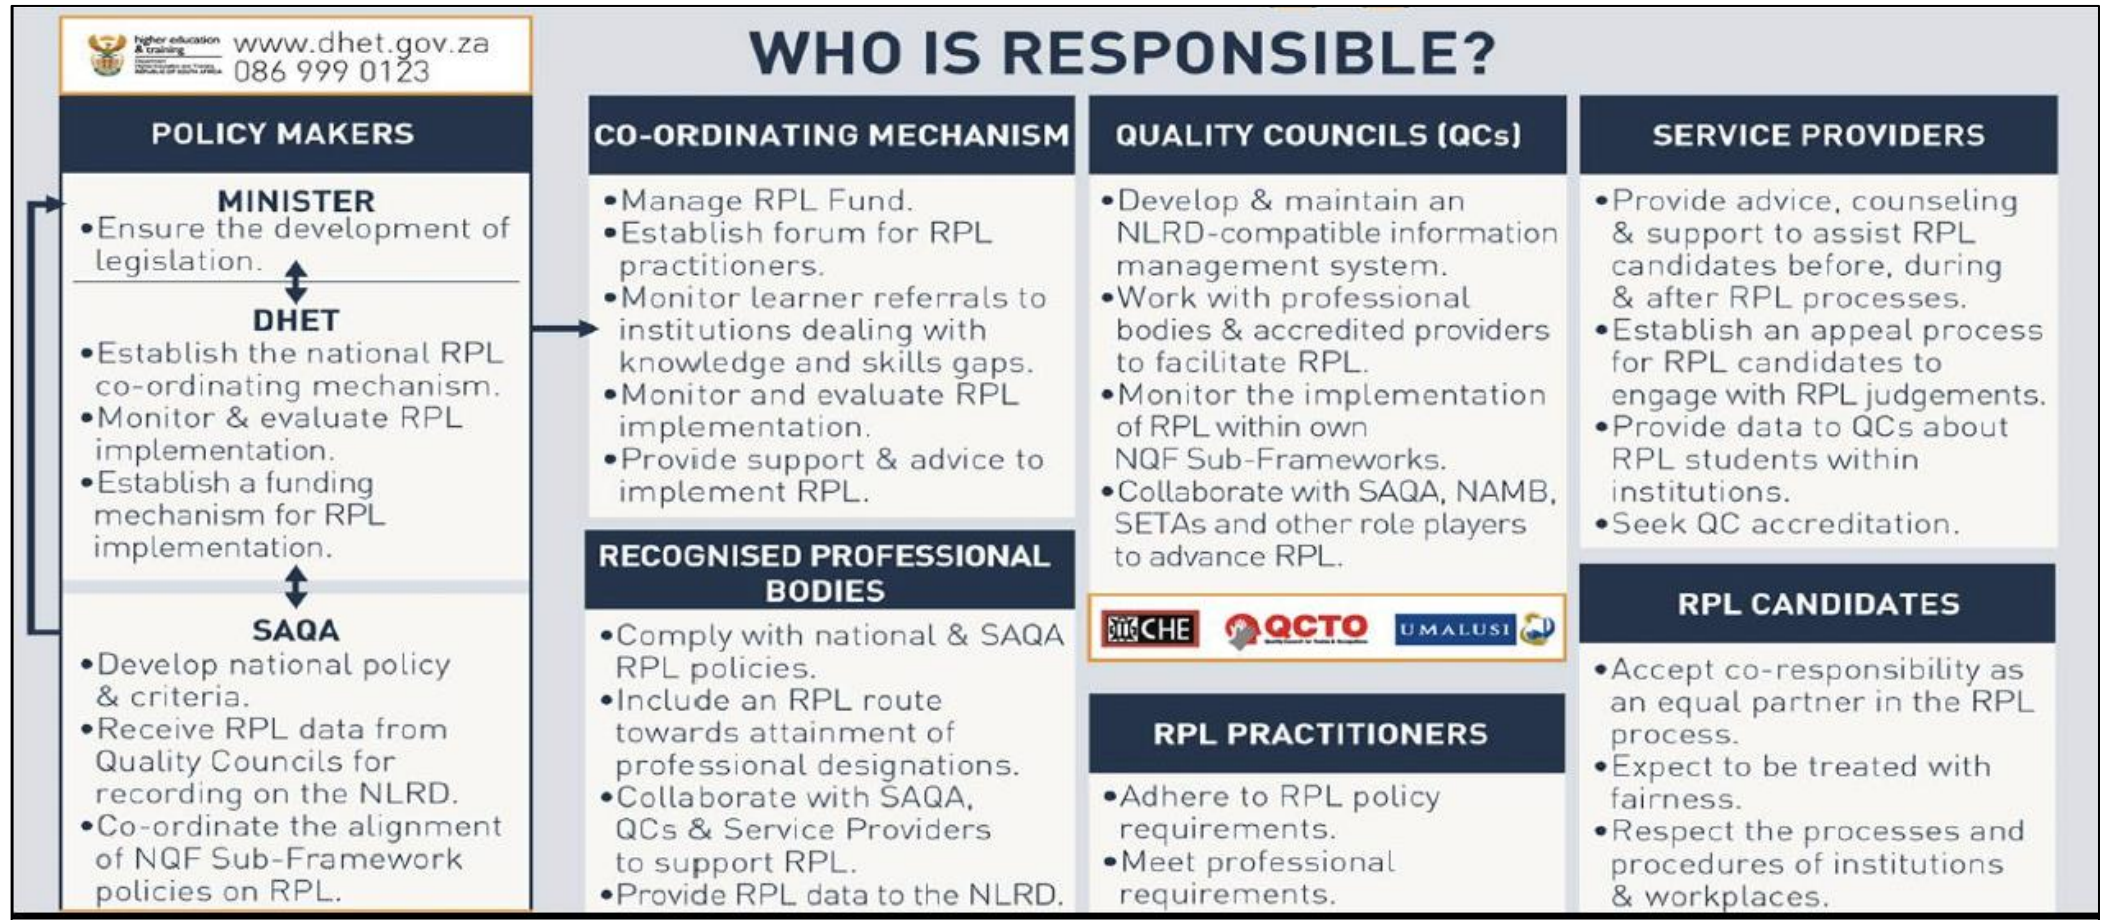

RECOGNITION OF PRIOR LEARNING

- ❑ Recognition of Prior Learning (RPL) is governed by the QCTO's RPL policy: <https://www.qcto.org.za/publications%2c-policies%2c-guidelines---forms.html>
- ❑ The QCTO and Quality Partner must be notified of the planned implementation of RPL prior to the programme commencement.
- ❑ RPL can only be implemented using the **RPL Toolkit which is developed per qualification. This is available from the MICT SETA.**
- ❑ RPL for access or credits remains part of the QCTO's approach and is supported and encouraged.
- ❑ The outcome of the RPL must prove that the learners are ready to write the EISA by completing internal assessments and the SDP must issue a Statement of Results for the learners.
- ❑ ARPL/ RPL Learners need to write the EISA to be issued the certificate.

RECOGNITION OF PRIOR LEARNING: PROCESS & REQUIREMENTS

RECOGNITION OF PRIOR LEARNING: PROCESS & REQUIREMENTS

RECOGNITION OF PRIOR LEARNING PROCESS

Candidate sources an Accredited SDP and applies for the process of RPL

Candidate provides the required documents as a precursor to gain access into RPL

An assessment is conducted by the SDP & learner is enrolled onto the programme

RPL Toolkit outcomes completed along with assessment & QA for issuance of SORs

EISA is completed & learner achieves against the outcomes. Certificate is issued

PLANNED TIMEFRAME – 90 DAYS

FINALISATION DEPENDANT ON DATE OF RECEIPT OF APPLICATIONS FROM QCTO, CONFIRMED DATE OF SITE VISIT BY SDP AND TURN-AROUND TIMES FOR GAP-CLOSURE

MICT SETA NDFSS IMPLEMENTATION ROADMAP

2019

- 1
- Genesis of 4IR in SA
 - Launch of the MICT SETA 4IR Advisory Committees
 - Establishment of MICT SETA 4IR Division

2020

- 2
- Development of MICT SETA Integrated Digital Skills Strategy (IDSS)
 - Establishment of Key Strategic Partnerships
 - Development of 4IR Occupational Qualifications
 - Establishment of 4IR Research Chairs

2022-23

- Implementation of 4IR Learning Programmes

2024 - ∞

- Development of 4IR Learning Material

4IR Advisory Committees

Ministerial Launch of the MICT SETA Advisory Committees

Launch of
the MICT
4IR
Advisory
Committee

Establishment of Advisory Committees

- To provide input and guidance on the major technological shifts, innovation and workforce strategies that will impact skills planning and implementation.

- ***Four Workstreams***

1. Education
2. Labour
3. Research
4. Policy

Roles of Advisory Committees

- Advise on strategies to enhance MICT subsector's global competitiveness;
- Advise on a research programme to advance 4IR;
- Advise on the skills development and future of work;
- Make recommendations on enabling relevant infrastructure for South Africa to participate in the digital economy

***Integrated
Digital Skills
Strategy
(IDSS)***

Integrated Digital Skills Strategy (IDSS)

Vision

A sector that benefit from enhanced digital skills realigned workforce, redesigned ecosystem and research.

Mission

To realign the labour workforce with 4IR skills demands to focus on industry specific research agenda in support of the redesigned education ecosystem, digital skills interventions and innovation

11	E-waste Practitioner	12	Software Developer

- The development of EISA's for the above qualifications is underway on final stage. Data Science Practitioner has been completed.

4IR Research Chairs

Establishment of Research Chairs

NSDP objective:

- ❖ Produce more than 100 doctoral graduates per year
- ❖ Expand science, technology and innovation outputs by increasing research and development spending
- ❖ MICT established Research Chairs under 4IR
- ❖ Adopted a different approach from traditional approach
- ❖ Fund Masters and PhD Students

Success Stories

Output/Results:

- Reduction of Unemployment: 130 jobs have been created from the above programmes.
- Startups and SMMEs: 47 Companies have been registered specializing in various 4IR general purpose technologies (Optic Fibre, 5G and Cloud Computing, Artificial Intelligence, Software Development, Internet of Things etc.)
- Cooperatives promoting self-employment: 18 Registered Digital Cooperatives (3D Printing, 5G & Cloud computing, Optic Fibre, IoT, Software Development; Cell phone and Laptop repairs)
- 5 Digital Incubation programmes (3 Artificial Intelligence; 2 Optic Fibre, Cell phone and Mobile Device Repairs)

4IR Graduations

- On the 23rd of May 2025, the MICT SETA, in collaboration with Orbit TVET College and Trailblazer held graduations for the second cohort of the Mobile Device Repairs programme. Repair Toolkits were handed over to the graduates to support their Mobile device repairs businesses.

4IR Graduations

- On the 22nd of May 2025, the MICT SETA, in collaboration with Forge Academy held graduations for students who completed programmes in AWS Cloud Computing and Business Analysis. The occasion was graced by the CEO, Mr Matome Madibana.

Engagements

- On 24th June 2025, The CEO along with Senior Manager: 4IR visited one of the 4IR learning programmes implemented at Tshwane North TVET, by one of our Strategic Partners – Greyscale. Students showcased some of the IoT innovations developed during the programme.

Engagements

- As part of the Youth Month Commemoration, The 4IR Division along with the CEO visited AB4IR offices and training centre to witness some of 4IR innovations and work done by the digital Hub.

4IR
Hackathons

MICT SETA 4IR Hackathons & National Skills Competitions

- In fostering an innovation culture and digital entrepreneurship in South Africa, the MICT SETA hosts hackathons in collaboration with various industry stakeholders to allow young people to create innovative solutions that will address various government, business and societal challenges.
- Hackathons allow young developers and digital practitioners to innovate and create digital solutions that help governments, businesses, and communities address some of their challenges.
- MICT SETA has hosted hackathons with the its strategic partners.
